# About this Repository

Brief introduction of the NetApp Solutions repository - where to find specific solutions and how to use this repository.

## Navigation of the Repository

Navigation of the repository is managed by the main sidebar which is presented on the left side of the page. Solutions are categorized into higher level technical areas defined as the "technology towers" for NetApp Solutions.

### Overview of Technology Towers

Section	Description
Artificial Intelligence	Collection of AI based solutions. Solutions are sub-classified into one of the following categories: AI Converged Infrastructures Data Pipelines, Data Lakes and Management Use Cases
Modern Data Analytics	Collection of Data Analytics solutions (e.g. Splunk SmartStore, Apache Spark, etc.)
Hybrid Cloud / Virtualization	Collection of hybrid cloud core solutions. Solutions are sub-classified into one of the following categories: VMware Virtualization VMware Private Cloud Red Hat Private Cloud Workload Performance
Virtual Desktops	Collection of end user computing solutions. Solutions are sub-classified into one of the following categories: Virtual Desktop Service (VDS) VMware Horizon Citrix Virtual Apps and Desktops Virtual Desktop Applications
Containers	Collection of container based solutions. Solutions are sub-classified into one of the following categories: Red Hat OpenShift Google Anthos
Business Applications	Collection of business applications solutions. Solutions are sub-classified into one of the following categories: SAP
Enterprise Database	Collection of database solutions. Solutions are sub-classified into one of the following categories: SAP HANA Oracle Microsoft SQL Server
Data Protection & Security	Collection of data protection and security solutions.

Infrastructure	Collection of infrastructure based solutions.
Solution Automation	Overview of getting started with solution automation using Red Hat Ansible.

## PDF Generation

A PDF can be generated for any solution or section of a solution by utilizing the PDF section located above the main sidebar on the left side of the page. The generate PDF capability follows the tree structure from the specified section and generates a PDF from that section of the navigation sidebar and includes all HTML files.

**NOTE:** PDF generation will not include documents which are references to files (e.g. links to PDF content) which are not located in this repository. PDF generation only includes content that is rendered as HTML.

The following options may be present when you expand the PDF section:

Section	Description
Site	Generates a PDF of the entire NetApp Solutions site. The resulting PDF will contain all solutions content in a single PDF file.
Sections	Displays a list of the sections that have been expanded using the navigation menu. In order to generate a PDF for an entire solution, select the section that represents the top level of the specific solution.
This Page	Generates a PDF of the currently displayed web page. It will <b>only</b> generate the currently visible page.

## Change Log

All major changes to the repository (new solutions, major updates, new videos / demos, etc.) are tracked in the [change log](#).

## Feedback

Please use [this link](#) to request changes to content or provide feedback on the content. Please be as specific as possible to ensure that your feedback is addressed appropriately.
