# NetApp Storage Integration Overview: Red Hat OpenShift with NetApp

NetApp provides a number of products which assist our customers with orchestrating and managing persistent data in container based environments, like Red Hat OpenShift.

NetApp Astra Control offers a rich set of storage and application-aware data management services for stateful Kubernetes workloads, powered by NetApp's trusted data protection technology.

Astra Control Service is available to support stateful workloads in cloud-native Kubernetes deployments.

Astra Control Center is available to support stateful workloads in on-premises deployments, like Red Hat OpenShift.

For more information visit the NetApp Astra Control website [here](#).

NetApp Astra Trident is an open-source and fully-supported storage orchestrator for containers and

Kubernetes distributions, including Red Hat OpenShift.

For more information visit the Astra Trident website [here](#).

The following pages have additional information about the NetApp products that have been validated for application and persistent storage management in the Red Hat OpenShift with NetApp solution:

- [NetApp Astra Control Center](#)
- [NetApp Astra Trident](#)

Next: [NetApp Astra Control Center Overview](#)
